Exporting report data to other applications.....	9

N.B. Please consider the environment before printing this guide; it is constantly reviewed and the latest version is always available to view on Practice Support Net (PSNET):

<https://www1.uwe.ac.uk/students/practicesupportnet.aspx>

Introduction

It is recommended to view current student allocation information using the **Students** tab option in ARC. Due to the volume of data held within the application, running a report uses more system resources and can therefore takes a significant time interval to run, depending on the volume of demand from other users.

There are two reports available and both can be selected to report data either for the placement from which the report is being requested or for all the placements to which a user has access to.

Reports can be run both in View and Edit mode.

Report Name

New & Existing student allocations	Indicated by colour code, shows students newly allocated to a placement and students already on placement. Other information includes placement capacity, students new to the organisation and those on a retrieval placement. Use this report on receipt of an automatic email indicating students have been allocated (or changes have taken place) to this placement.
Complete placement duration dates	Shows the full start and end dates for all students on placement during the date range specified. Other information includes students on retrieval, new to the Trust (organisation) and resuming practice after having intermitted their studies.

Both reports can be exported to other applications e.g. Microsoft Excel, where the user can manipulate data and amend the format.

Accessing reports

1. Click on the **Reports** tab on the menu bar (Fig 1)

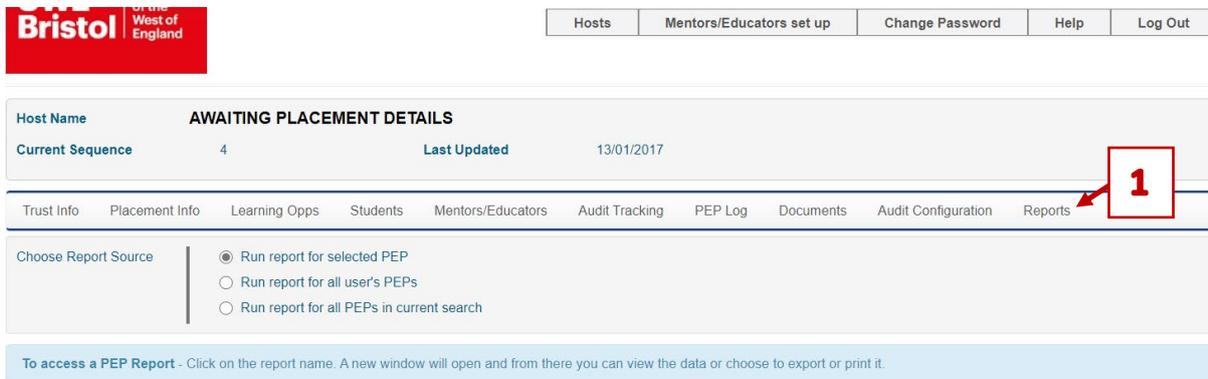

Fig 1

2. View available report sources options and the existing reports listed in the General section (Fig 2)

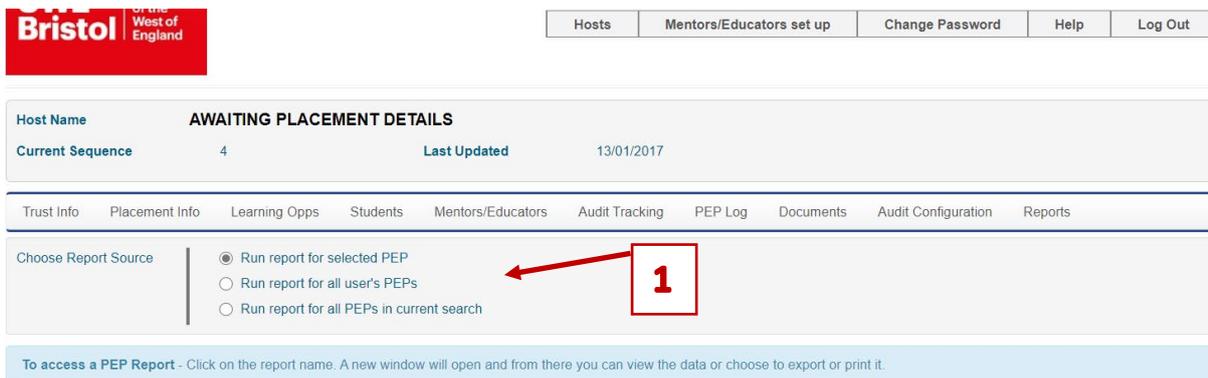

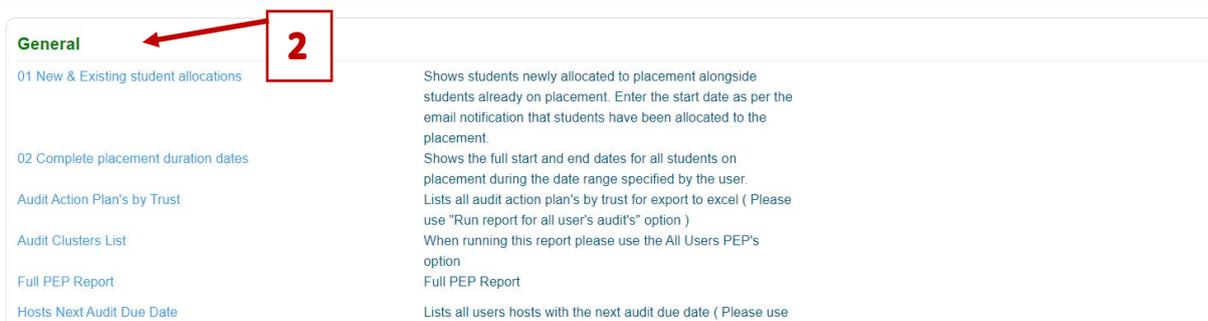

Fig 2

New & Existing student allocations report

1. Choose Report Source:
 - Select **Run report for selected PEP** to report information for the placement from which the report is being run
 - Select **Run report for all User's PEPs** to report information for all the placements the user can access
2. Click on the **New & Existing student allocations** report
3. Enter the start date provided in the automatic email alert received then click on the calendar icon and use the arrow keys to move through the months and years. Once the required date is selected click on the **OK** button. (Fig 3)
4. Enter the end date, typically 12 weeks from start date, but note there may be holiday periods which extend this date. Once the required date is selected click on the **OK** button.
5. Click on the **OK** button close the Enter Values popup window to run the report.
6. Please consider the environment before choosing to print the document.
 - The report results can be viewed on the screen (Fig 4)
 - New student allocations are denoted in green
 - Continuous student allocations are denoted in blue
 - RS = Student is returning to practice after having intermitted their programme of study
 - NT = Student is new to this Trust/Organisation
 - R within the coloured box indicates this is a 'retrieval' (additional) placement to achieve specific learning objectives.

Fig 4

Complete placement duration dates report

1. Choose Report Source:
 - Select **Run report for selected PEP** to report information for the placement from which the report is being run
 - Select **Run report for all User's PEPs** to report information for all the placements the user can access
2. Click on the **Complete placement duration dates** report
3. Enter the start date provided in the automatic email alert received then click on the calendar icon and use the arrow keys to move through the months and years. Once the required date is selected click on the **OK** button. (Fig 3)
4. Enter the end date for the period in which you want the system to report.
5. Click on the **OK** button to run the report
6. Please consider the environment before choosing to print the document.
 - The report results can be viewed on the screen (Fig 5 and Fig 6)
 - All allocations that are in place for a minimum of 1 day for the time period selected in steps 3 and 4 above will be on the report
 - RS = Student is returning to practice after having intermitted their programme of study
 - NT = Student is new to this Trust/Organisation
 - R within the coloured box indicates this is a 'retrieval' (additional) placement to achieve specific learning objectives.

Exporting report data to other applications

If you choose to export the data from any report to another application:

1. Click on the **blue icon**  representing the export function (Fig 7)
2. Select from the drop-down list the file format you require listed below:
 - .pdf
 - Microsoft Excel (97-2003); Microsoft Excel (97-2003) Data Only; Microsoft Excel Workbook Data-only
 - Microsoft Word (97-2003); Microsoft Word (97-2003) – Editable
 - Rich Text Format (RTF); Character Separated Values (CSV); XML

N.B. NO SUPPORT IS PROVIDED FOR THE USE OF THESE APPLICATIONS BY UWE BRISTOL

The screenshot shows a web-based report viewer for the University of the West of England (UWE Bristol). The report title is "Summary Report 1 - Within date range" and the subtitle is "Student Allocations only between 23/02/2015 and 25/04/2015". The report content is a table with columns: Placement, Total Capacity, Intake, Surname, Forename, and RS NT. An "Export" dialog box is open, showing a list of file formats. The "File Format:" dropdown is set to "Crystal Reports (RPT)". The "Page R:" dropdown is set to "Crystal Reports (RPT)". The "Export" button is visible at the bottom right of the dialog. A key at the bottom of the report explains the RS, NT, and .Y. codes.

KEY: RS-Returning Student ■ New Student Allocations ■ Retrieval of Practice
NT New to Trust ■ Continuous Student Allocations ■
.Y- Yes
