South PAD 1.0; Future Nurse: Standards of proficiency for registered nurses, (NMC 2018)

Please keep your Practice Assessment Document with you at all times in practice in order to review your progress with your Practice Supervisor, Practice Assessor and/or Academic Assessor

This South PAD Practice Assessment Document for Nursing has been adapted from the Pan London Practice Assessment Document which was completed by the Pan London Practice Learning Group in collaboration with practice partners, mentors, academic staff, students and service users across the London Region. This work has been led by Jane Fish as Project Manager. The South PAD Project Team has also collaborated with practice partners, mentors, academic staff, students and service users across the South Region in the adaptation process.

## Membership of the Pan London Practice Learning Group (PLPLG)

- Kathy Wilson, Associate Professor, Head of Practice Based Learning, Middlesex University (Chair)
- Nicki Fowler, Programme Leader/Professional Lead, Learning Disabilities, University of Greenwich (Vice Chair)
- Lynn Quinlivan, Practice Programme Co-Ordinator for Pre-Registration Nursing, University of Hertfordshire

### **Statement regarding the use of the term “Parts”**

There are three Practice Assessment Documents in total, which incorporate the range of Future Nurse Standards of proficiency (NMC 2018). “Parts” in this context is used to represent the range of outcomes to be achieved by students at different levels. These parts may differ from the parts of the education programme that will be defined locally by each programme provider.

## Welcome to the Practice Assessment Document (PAD)

### Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the *Future nurse: Standards of proficiency for registered nurses and Standards for education and training* (NMC 2018).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning.

You are responsible for raising concerns with a nominated person in the practice setting in a timely manner. You should also alert staff to any reasonable adjustments that may be required to support your learning.

You should ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to your university's intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carer identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

People must be offered the opportunity to give and if required withdraw their informed consent to student participation in their care and staff in practice will provide guidance as required. Before approaching any patient/service user/carer for feedback you must discuss with your Practice Supervisor/Practice Assessor who will facilitate consent.

**Practice Supervisor responsibilities** (Registered nurse/midwife or other registered health/social care professional)

In many practice areas the student will be supported by a number of Practice Supervisors. Some areas may adopt a team based approach due to the nature of the experience.

As a Practice Supervisor you have an important role in supporting and guiding the student through their learning experience to ensure safe and effective learning. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. It is your responsibility to contribute to the student's assessment through the recording of regular feedback on their progress towards, and achievement of their proficiencies. Specific feedback must be provided to the Practice Assessor on the student's progress.

**Supervision in other placement areas** (i.e. those areas where there are no health/social care registrants)

A range of staff can support student learning and have a vital role in student learning and development though may not be contributing formally to assessment of proficiencies.

However, these staff members are encouraged to support learning and can provide valuable student feedback within the PAD on the *Record of communication/additional feedback pages*.

### **Practice Assessor responsibilities (Registered Nurse)**

As a Practice Assessor you have a key role in assessing and confirming the student's proficiency providing assurance of student achievements and competence. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. You will observe the student, conduct and record student assessments informed by student reflections, feedback from Practice Supervisors and other relevant people to confirm achievement. You will liaise with the Academic Assessor scheduling communication at relevant points.

Practice Assessors must have appropriate equivalent experience of the student's field of practice.

There are numerous elements requiring assessment in practice. One or more Practice Supervisors can contribute to the assessment of some of the proficiencies in discussion with you, but they must be working in their scope of practice.

When assessing the student, you should take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action an Action Plan should be instigated to address specific needs or concerns within a specified timeframe. In the event of this, seek guidance from the Academic Assessor and/or senior practice representative.

### **Academic Assessor responsibilities**

Academic Assessors are Registered Nurses and are nominated for each part of the educational programme. The same Academic Assessor cannot contribute to the student assessment in consecutive parts. The Academic Assessor will work in partnership with the Practice Assessor to evaluate and recommend the student for progression for each part of the educational programme. The Academic Assessor will enable scheduled communication and collaboration with the Practice Assessor and this communication can take a variety of forms.

**All communications/ additional feedback (not already recorded in the scheduled interviews) from the Practice Supervisors, Practice Assessor and Academic Assessor and other staff members needs to be recorded on the relevant pages in the PAD.**

## Guidance for using the PAD to facilitate learning and assessment in practice

Assessment criteria in the PAD are based on the NMC *Future nurse: Standards of proficiency for registered nurses* and *Standards for education and training* (NMC 2018). The outcome statements have been designed by the NMC to apply across all four fields of nursing practice and all care settings (NMC 2018). *Students must be able to demonstrate a greater depth of knowledge and the additional more advanced skills required to meet the specific care needs of people in their chosen fields of nursing practice* (NMC, 2018, p6). **This Practice Assessment Document can be used in any field of practice.**

### Components of Assessment and Feedback (see individual university guidance/regulations)

**Professional Values:** Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code (NMC 2018). All must be achieved *by the end of each placement*.

**Proficiencies:** These reflect aspects of the 7 Platforms, communication and relationship management skills and nursing procedures (NMC 2018). These can be assessed in a range of placements, but must be achieved at least once *by the end of the Part*.

**Episode of Care:** This holistic assessment(s) facilitates and demonstrates the student's progress and must be achieved *by the end of the Part*.

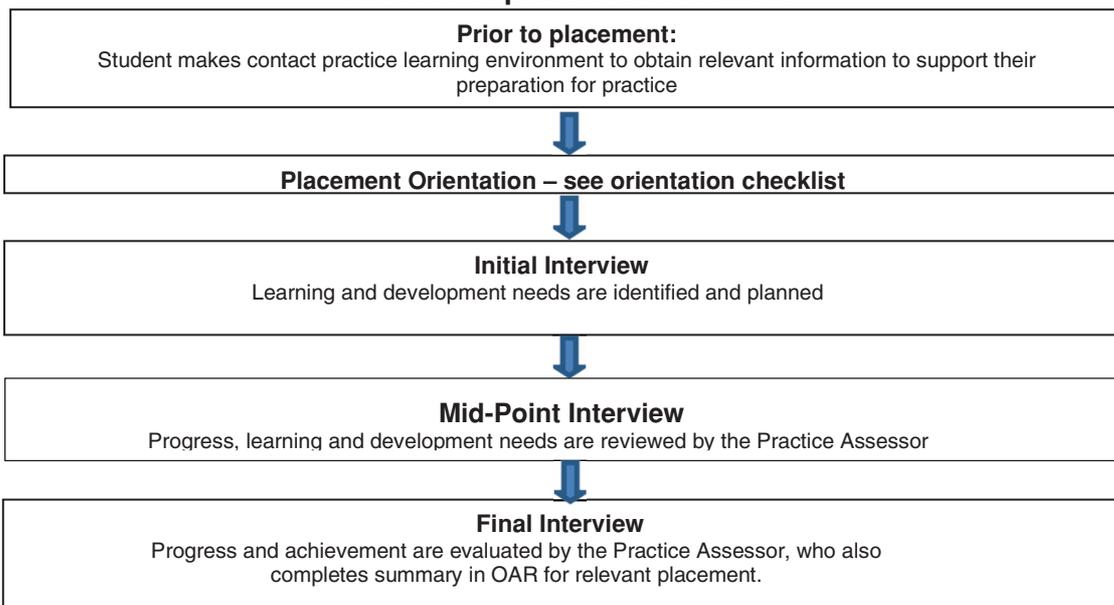

**Medicines Management:** There is one assessment included in each part and each must be achieved *by the end of the Part*.

**Patient/Service User/Carer Feedback Form:** Feedback will be sought in relation to how the student cared for the person receiving care. This is not formally assessed, but will contribute to overall student feedback.

**Recording Additional Experiences and Feedback:** There are additional pages for the student to record reflections on their own learning and pages to record communication and additional feedback from all those supporting learning and assessment.

**Ongoing Achievement Record:** The OAR summarises overall achievements and provides a comprehensive record of student development and overall performance.

### Process of practice assessment

**Further information / guidance is included in the university specific pages (overleaf) and in the Practice Assessment Document Guide**

## The Open University Placement Specific Information

### Placement delivery

As a learner on the nursing programme you may be a student or an apprentice. The principles set out here and throughout the PAD apply to you, whichever funding route you are following. Your placements are planned according to the requirements set out in the practice learning pathways available on your module websites. These principles must be followed throughout your time studying your qualification. Your employer will have agreed the number of hours that you will be released to achieve the theory and practice requirements of the programme. Typically learners released for 34 hours per week can complete their qualification in three years, whilst those released for 26 hours per week complete their qualification in four years.

You will complete three placements during each level of the programme. You must ensure that you achieve the number of practice hours specified for each of these placements according to the practice learning pathway that underpins your route of study. Advice about the pathways is available from your university practice tutor and your link tutor.

### Mandatory training

You must be up to date and stay up to date with the mandatory training provided by your employer. This supports your safety and the safety of patients or service users and colleagues whilst in practice settings. If you have a placement with another local healthcare provider, who is not your employer, you may need to undertake additional training before starting the placement. Consult your link tutor.

### Reasonable adjustments in practice

If you have declared a disability including specific learning differences such as dyslexia, provided evidence of this and it is recognised on your student record by the university, reasonable adjustments will be agreed. Any reasonable adjustments in place must still enable you to meet the level of competence required to successfully achieve proficiencies, skills and procedures. Further advice is available from your link tutor.

Reasonable adjustments will be underpinned by a risk assessment, and where appropriate this will interface with any risk assessment undertaken by your employer. For example, if you become pregnant your employer will undertake a risk assessment and the university will reflect this in its own risk assessment and reasonable adjustment form.

### Being supernumerary in practice

You remain an employee whilst studying your programme and will contribute to delivery of care within the workforce numbers. You will be rostered for these shifts in your substantive workplace. Your employer has agreed to release you for the equivalent of a specified number of hours per week to enable you to achieve the theory and practice hours required by the Nursing and Midwifery Council. When undertaking these hours in practice you must be supernumerary at all times and supported by a practice supervisor. This will allow you to focus on developing existing skills or learning new skills and procedures in the context of becoming a registered nurse

### Accounting for your completed practice hours

At the end of every supernumerary practice shift that you work, you must enter this on the record provided for this purpose in your Practice Assessment Document (PAD). Your attendance must be verified on that day by a registered professional with whom you have worked: this will normally be your practice supervisor.

### **Reporting and recording sickness and absence**

If you are ill or experience a significant problem and are scheduled to undertake a supernumerary practice shift you must ring the practice placement area and inform the person in charge that you will not be attending. You must also email your line manager at work, your practice supervisor/practice assessor in the placement area and your university practice tutor to inform them of your sick leave or absence. This message should be sent before the start of the sickness/absence. You must email them again to confirm the date on which you are resuming your work and studies. You must enter all days of sickness/absence on the record in your PAD whether these occur on a theory day, a supernumerary practice day or a day when you are working in the workforce numbers.

### **Submitting your record of attendance**

At the end of every month your record of completed hours, sickness and absence must be submitted electronically to your practice tutor. Your employer may also require a copy.

### **Confidentiality**

You must maintain the NMC requirements for confidentiality at all times and must follow the policy of the placement provider. Ensure that you do not include any patient details in reflective accounts or episodes of care that will enable them to be identified.

### **Gaining consent to deliver care**

You and your practice supervisor/practice assessor must ensure that each patient/service user is aware of your status as a learner and that consent is obtained for you to participate in the delivery of their care. Follow the local procedure for gaining consent as this will vary dependent on the placement and intervention intended.

### **Safeguarding, safe practice and raising concerns**

It is the responsibility of every practitioner, including learners, to ensure the wellbeing of patients/service users is protected and action taken if there are any concerns about care practices and/or interventions.

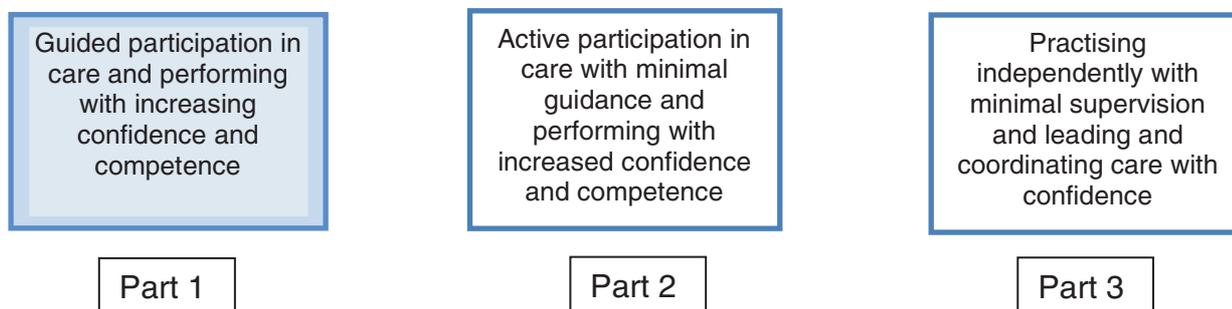

You must raise any concerns that you have regarding the care or safety of patients as soon as possible. Further advice is available in your Nursing Handbook. Make sure you are familiar with the NMC's guidance on raising concerns <https://www.nmc.org.uk/standards/guidance/raising-concerns-guidance-for-nurses-and-midwives/>. You should also refer to local policy and procedures. In addition to raising your concern with your practice supervisor or the person in charge, contact your practice tutor and/or your local link tutor at the earliest opportunity as they will provide support for you. Raising concerns can be worrying and the university will prioritise support for you.

### **Ongoing achievement record**

This record is used alongside your PAD. You should provide it to your practice supervisors, practice assessors and practice tutors/academic assessors so that an ongoing summary of your progress can be recorded. It can be requested by them at any time so you must be able to give them access to it. It provides a record of your progress through the entire programme so **you must keep it safe.**

## Criteria for Assessment in Practice

Overall Framework Parts 1 – 3 to be achieved by the end of the part

*The decision on the level of supervision provided for students should be based on the needs of the individual student. The level of supervision can decrease with the student's increasing proficiency and confidence. (NMC, 2018, p 5)*

### Part 1: Guided participation in Care

**'Achieved' must be obtained in all three criteria by the student**

Achieved	Knowledge	Skills	Attitude and values
<b>YES</b>	Is able to identify the appropriate knowledge base required to deliver safe, person centred care under with some guidance.	In commonly encountered situations is able to utilise appropriate skills in the delivery of person centred care with some guidance.	Is able to demonstrate a professional attitude in delivering person centred care. Demonstrates positive engagement with own learning.
<b>NO</b>	Is not able to demonstrate an adequate knowledge base and has significant gaps in understanding, leading to poor practice.	Under direct supervision is not able to demonstrate safe practice in delivering care despite repeated guidance and prompting in familiar tasks.	Inconsistent professional attitude towards others and lacks self-awareness. Is not asking questions nor engaging with own learning needs.

## Professional Values in Practice (Part 1)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

**Yes = Achieved, No = Not Achieved (Refer to Criteria for Assessment in Practice)**

	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
<b>Prioritise people</b>				
1. The student maintains confidentiality in accordance with the NMC code.				
2. The student is non-judgemental, respectful and courteous at all times when interacting with patients/service users/carers and all colleagues.				
3. The student maintains the person's privacy and dignity, seeks consent prior to care and advocates on their behalf.				
4. The student is caring, compassionate and sensitive to the needs of others.				
5. The student understands their professional responsibility in adopting and promoting a healthy lifestyle for the well-being of themselves and others.				
<b>Practise effectively</b>				
6. The student maintains consistent, safe and person-centred practice.				
7. The student is able to work effectively within the inter-disciplinary team with the intent of building professional relationships.				
8. The student makes a consistent effort to engage in the requisite standards of care and learning based on best available evidence.				
<b>Preserve safety</b>				
9. The student demonstrates openness (candour), trustworthiness and integrity.				
10. The student reports any concerns to the appropriate professional member of staff when appropriate e.g. safeguarding.				
11. The student demonstrates the ability to listen, seek clarification and carry out instructions safely.				
12. The student is able to recognise and work within the limitations of own knowledge, skills and professional boundaries and understand that they are responsible for their own actions.

## Record of peer feedback

Feedback is an essential part of the learning process. Through engaging in peer review and receiving feedback from a number of peers, students are exposed to a greater diversity of perspectives as well as enabling students to develop skills in peer review and feedback.

These records can be completed by peers i.e. other students who have worked alongside you or have had the opportunity to discuss your learning needs with you. If you have facilitated a teaching session on placement you can use the form below to obtain feedback.

## Record of peer feedback

Feedback is an essential part of the learning process. Through engaging in peer review and receiving feedback from a number of peers, students are exposed to a greater diversity of perspectives as well as enabling students to develop skills in peer review and feedback.

These records can be completed by peers i.e. other students who have worked alongside you or have had the opportunity to discuss your learning needs with you. If you have facilitated a teaching session on placement you can use the form below to obtain feedback.

## Assessment of Proficiencies

Incorporating Platforms 1 – 7

Annexe A: Communication and relationship management skills

Annexe B: Nursing procedures

These proficiencies “**apply to all registered nurses, but the level of expertise and knowledge required will vary depending on the chosen field(s) of practice**”. (NMC, *Future Nurse, 2018, p22, 26*)

Assessment of Proficiencies are undertaken across the Part. These can be assessed in a range of placements but need to be assessed as Achieved (YES) at least once by the end of the Part. If a proficiency is assessed as Achieved (YES) early in the Part it is expected that the student maintains that level of competence and can be re-assessed in subsequent placements at the Practice Assessor’s discretion.

The Grade Descriptors are ‘Yes’ (This proficiency has been achieved), ‘No’ (this proficiency has not been achieved). Refer to Criteria for Assessment in Practice for further details.

Some of the proficiencies may be met within simulated learning as per the individual university’s policy.

**Part 1 Assessment of Performance:** The individual completing the assessment should draw on a range of observed experiences in which the student demonstrates the required knowledge, skills, attitudes and values to achieve high quality person-centred/family-centred care, ensuring all care is underpinned by effective communication skills.

	<b>Participates in assessing needs and planning person-centred care</b>							
	<b>YES = Achieved, NO = Not Achieved</b>

### **Part 1 Episode of Care - Formative** (to support development & gain feedback)

This assessment must be completed by the end of Part 1.

The Part 1 summative episode of care (final) assessment will be undertaken by the Practice Assessor.

### **Guidelines**

**The practice supervisor/assessor and student will identify an appropriate episode of direct care involving meeting the needs of a person/family receiving care. Professionalism underpins all aspects of the student's performance.**

The aim of this assessment is to demonstrate the student's progression in the following 5 platforms within the *Future Nurse: Standards of proficiency* (including skills from annexe A and B) (NMC 2018) in the context of their intended field(s) of practice:

- Promoting health and preventing ill health
- Assessing needs and planning care
- Providing and evaluating care
- Improving safety and quality of care
- Coordinating care

Effective communication and relationship management skills underpin all aspects of care. (Annexe A)

Students are required to use appropriate approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

### **Learning outcomes**

**The student is able to:**

1. Work in partnership with the person receiving care, their families and carers (where appropriate), can undertake an accurate assessment and provide evidence based, compassionate and safe nursing care.
2. Demonstrate understanding and can apply the relevant knowledge and skills to meet the individual's needs relating to dignity, comfort, hygiene and mobility.
3. Communicate effectively utilising appropriate verbal and non-verbal skills in the delivery of person centred care decisions, taking into consideration the use of personal communication aids as appropriate.
4. Identify the impact of lifestyle choices on the individual's mental and physical health and wellbeing and demonstrates the principles of health promotion and preventing ill health.
5. Demonstrate that they have maintained professional values and demonstrates knowledge of safety and safeguarding for the person receiving care and the carers and/or family.

**Student reflection on an episode of care**

Within your reflection, describe the episode of care and how you assessed, delivered and evaluated care.

What did you do well?

What would you have done differently?

**Practice Assessor feedback**

Based on the student's reflection, your observation and discussion of the episode of care, please assess and comment on the following:

**Yes = Achieved, No = Not Achieved (Refer to Criteria for Assessment in Practice)**

<b>Standard of proficiency</b>	<b>Yes/No</b>	<b>Comments</b>
<b>Assessing needs and planning care</b> Takes an accurate history and undertakes a person centred assessment in order to plan effective care.		
<b>Providing and evaluating care</b> Provides person-centred evidence based care in managing dignity, comfort, hygiene and mobility needs of the individual.		
<b>Promoting health and preventing ill health</b> Applies the principles of health promotion and improvement as appropriate when caring for the individual and their families.		
<b>Improving safety and quality of care</b> Undertakes relevant risk assessments (e.g. falls, skin integrity, mental capacity) that may be required and demonstrates an understanding of the difference between risk aversion and risk management.		
<b>Coordinating Care</b> Utilises a range of communication skills to effectively engage with the person receiving care, their family/carers and members of the multidisciplinary team in the provision and evaluation of care.

## Part 1 Medicines Management

This assessment must be completed by the end of Part 1 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in any care settings.

During Part 1 the student should be developing their knowledge and skills in relation to the safe administration of medicines. This assessment should normally be undertaken with one or more patients/service users.

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment.

**The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies.**

**Regulatory requirements:** *Future Nurse: Standards of Proficiency for Registered Nurses* (NMC 2018), *The Code* (NMC 2018), *A Competency Framework for all Prescribers* (The Royal Pharmaceutical Society 2016)

The aim of this assessment is to ensure students can perform safe administration of medicines under direct supervision.

**Learning outcomes** (Annexe B)

**The student is able to:**

1. Apply knowledge of pharmacology, how medicines act and interact in the systems of the body, and their therapeutic action.
2. Prepare routine medications where necessary, safely and effectively administer these via common routes and maintains accurate records.
3. Safely and accurately perform medicines calculations.
4. Demonstrate that they have maintained appropriate professional values, expected attitudes and behaviours during the administration of medicines.
5. Maintain safety and safeguard the patient from harm, demonstrating understanding of the Mental Capacity Act (DH 2005) and The Mental Health Act (DH 1983, amended 2007), where appropriate.

		<b>YES = Achieved No = Not Achieved</b>	
<b>Competency</b>	<b>Yes/No</b>	<b>Competency</b>	<b>Yes/No</b>
1. Is aware of the patient/service user's plan of care and the reason for medication demonstrating knowledge of pharmacology for commonly prescribed medicines		7. Prepares medication safely. Checks expiry date. Notes any special instructions/contraindications.	
2. Communicates appropriately with the patient/service user. Provides clear and accurate information and checks understanding.		8. Calculates doses accurately and safely. <ul style="list-style-type: none"> <li>• Demonstrates to assessor the component parts of the calculation.</li> <li>• Minimum of 3 calculations undertaken</li> </ul>	
3. Understands safe storage of medications in the care environment.		9. Checks and confirms the patient/service user's identity and establishes consent. (ID band or other confirmation if in own home)	
4. Maintains effective hygiene/infection control throughout.		10. Administers or supervises self-administration safely under direct supervision. Verifies that oral medication has been swallowed.	
5. Checks prescription thoroughly. <ul style="list-style-type: none"> <li>• Right patient/service user</li> <li>• Right medication</li> <li>• Right time/Date/Valid period</li> <li>• Right dose/last dose</li> <li>• Right route/method</li> <li>• Special instructions</li> </ul>		11. Describes/demonstrates the procedure in the event of non-compliance.	
		12. Safely utilises and disposes of equipment.	
		13. Maintains accurate records. <ul style="list-style-type: none"> <li>• Records, signs and dates when safely administered</li> </ul>	
		14. Monitors and reports effects and is aware of common side effects and how these are managed.	
6. Checks for allergies demonstrating an understanding of the risks and management of these as appropriate <ul style="list-style-type: none"> <li>• Asks patient/service user.</li> <li>• Checks prescription chart or identification band</li> </ul>		15. Uses appropriate sources of information e.g. British National Formulary
